

**GOOD RESILIENCE + EXCELLENT SEAL**

# **COSMETIC BRANDS**

**COVER OF AIR CUSHION  
POWDER COMPACT**

## **AVIENT SOLUTION**

Custom Versaflex™ TPE

## **WHY AVIENT?**

- Delivered chemically resistant material with excellent sealing properties and good resilience to achieve requested performance
- Provided onsite technical support to improved injection speed and achieve good bonding performance
- Offered a material solution that could be leveraged across the customer's global cosmetic brands

## **KEY REQUIREMENTS**

- Low coefficient of friction (COF) to balance the opening pressure and sealing performance
- General FDA compliance
- Good chemical resistance and barrier protection to water and oxygen
- Overmold to PP with good compression set
